Ideas to change the world

If you can figure it out!

World Population

We Have Added 1 Billion People in the last 10 years

By 2030 we would have 9 Billion People

India: Facts & Figures

Current Population:

1.21 billion

Literacy Rate:

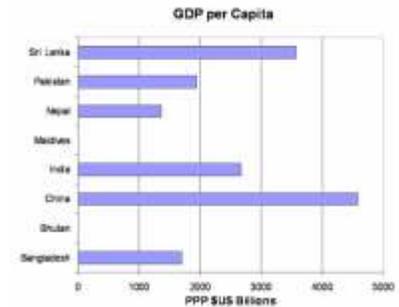

74 %

Suicide Rate:

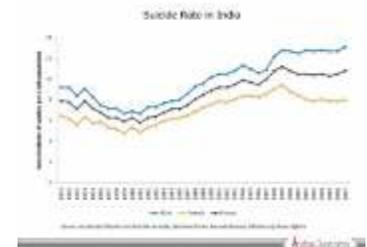

10.65 per 100,000

Unemployment Rate:

9.4 %

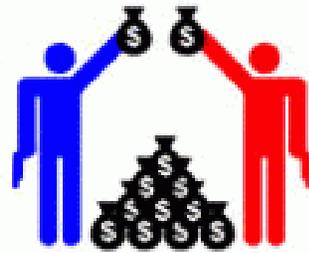

India: Total spend £295.1 million (2009-10)

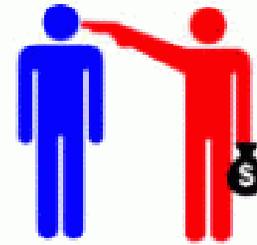

Confronting the *'-isms'*

Capitalism
Communism
Socialism
Fascism
Hedonism
Cubism

...

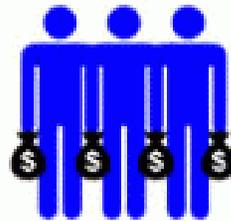

Capitalism, to capitalists

Capitalism, to socialists

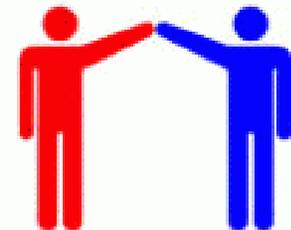

Fascism

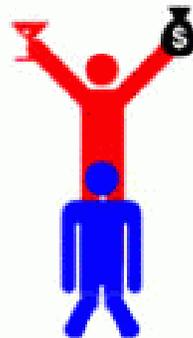

Socialism, to socialists

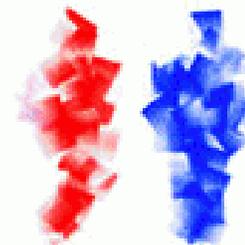

Socialism, to capitalists

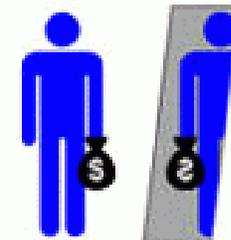

Anarchism

Hedonism

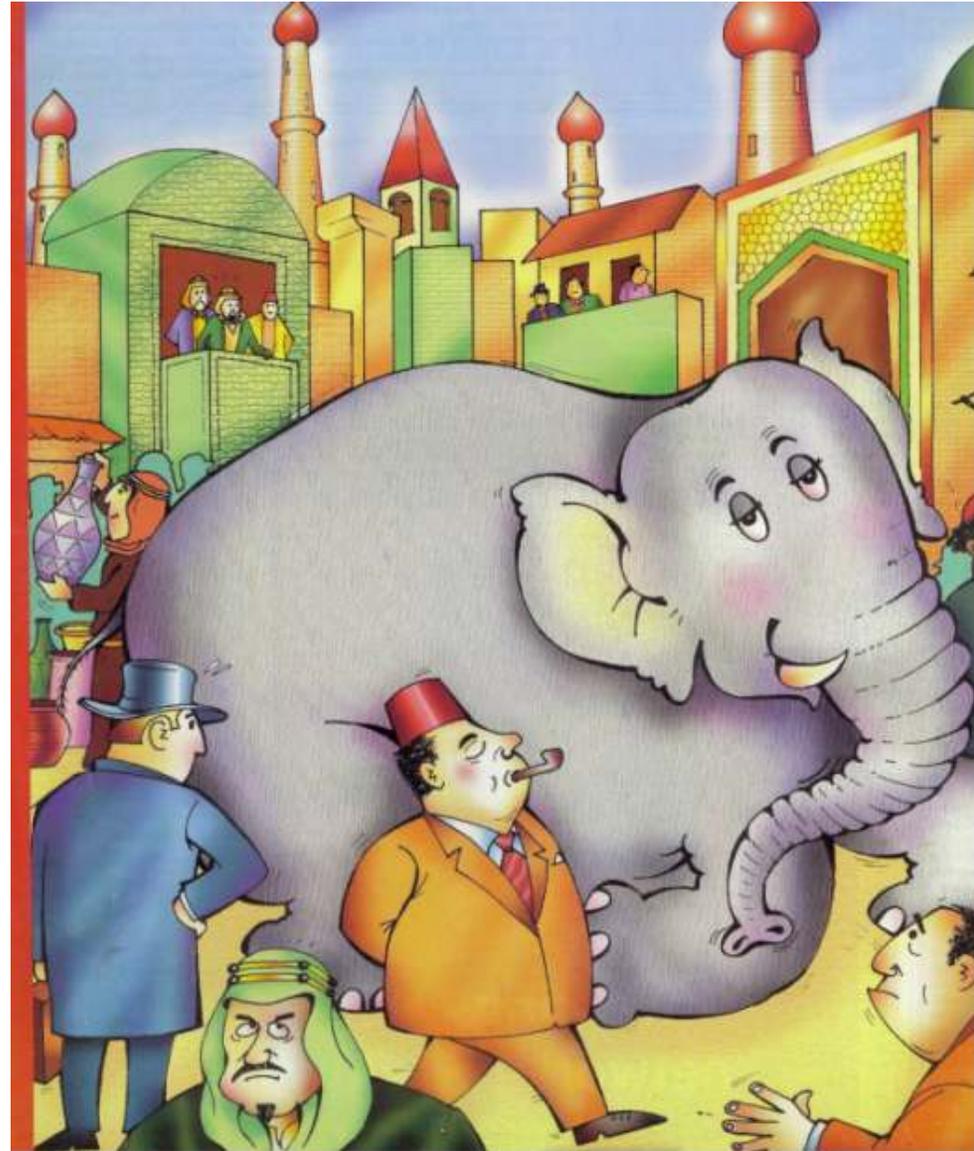

Cubism

Narcissism

The elephant in the market place defines the automatic onset of corruption the moment you bring in the capitalist model of development in its present form

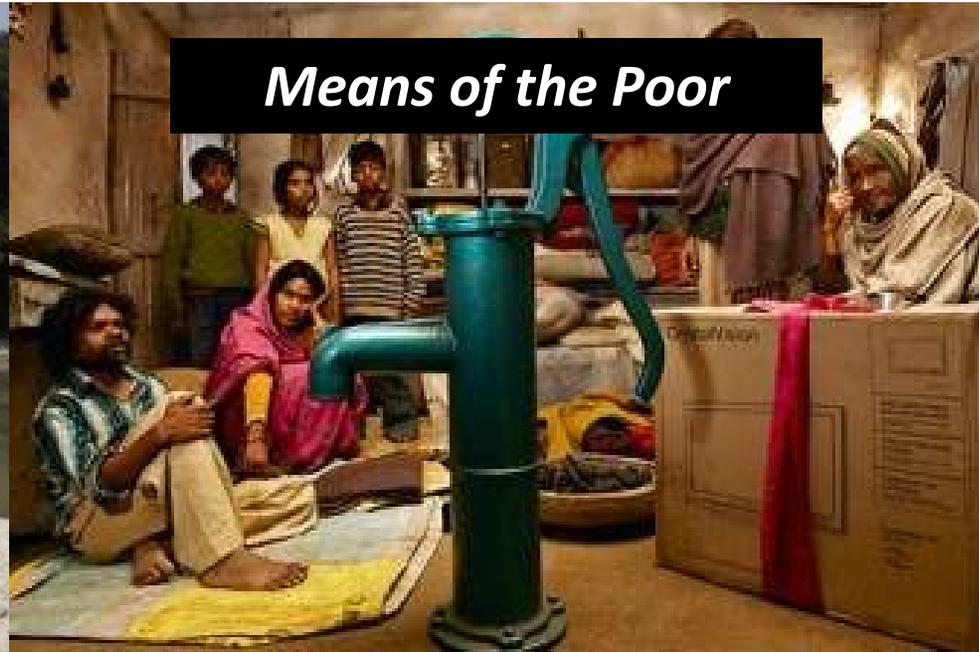

Dreams of the Rich, Means of the Poor

Incredible India

Dreams of the Rich

Means of the Poor

India Shining

India Aspiring

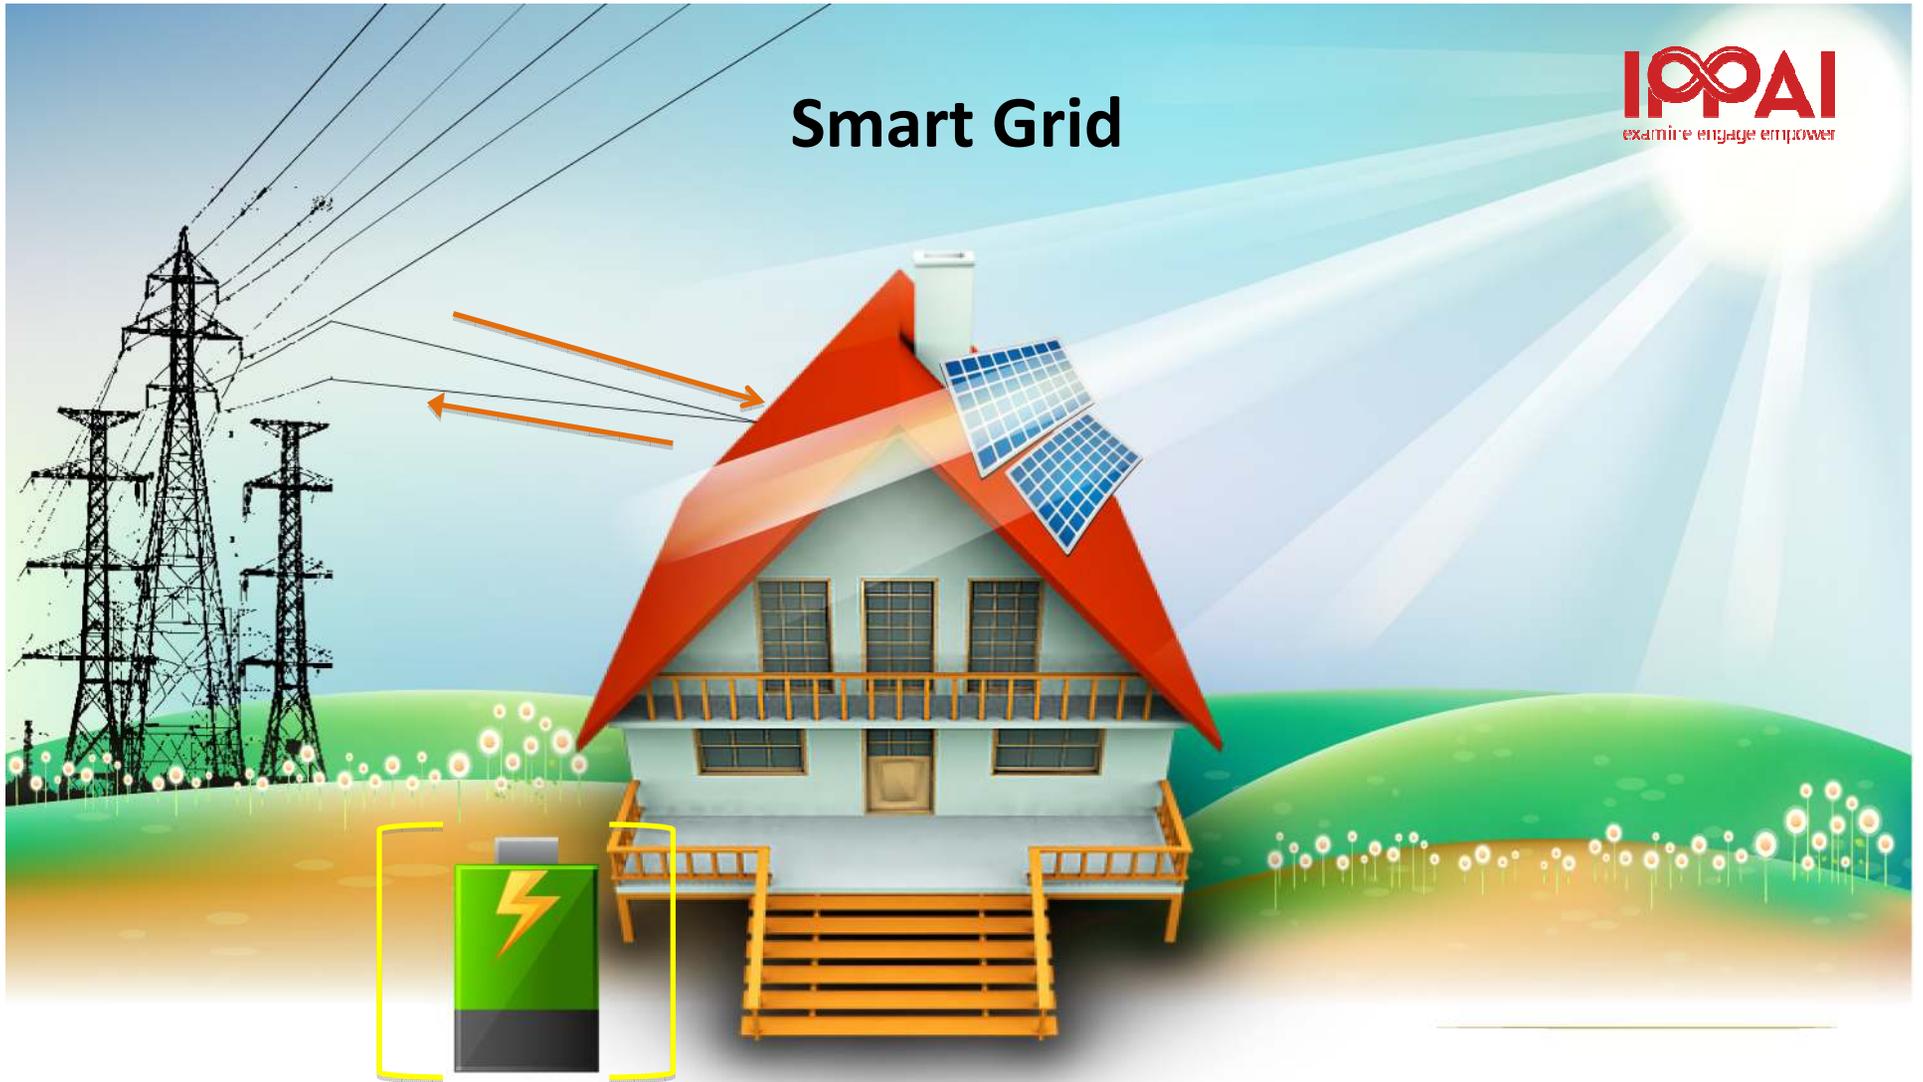

Dreams of the Rich, Means of the Poor

Incredible India

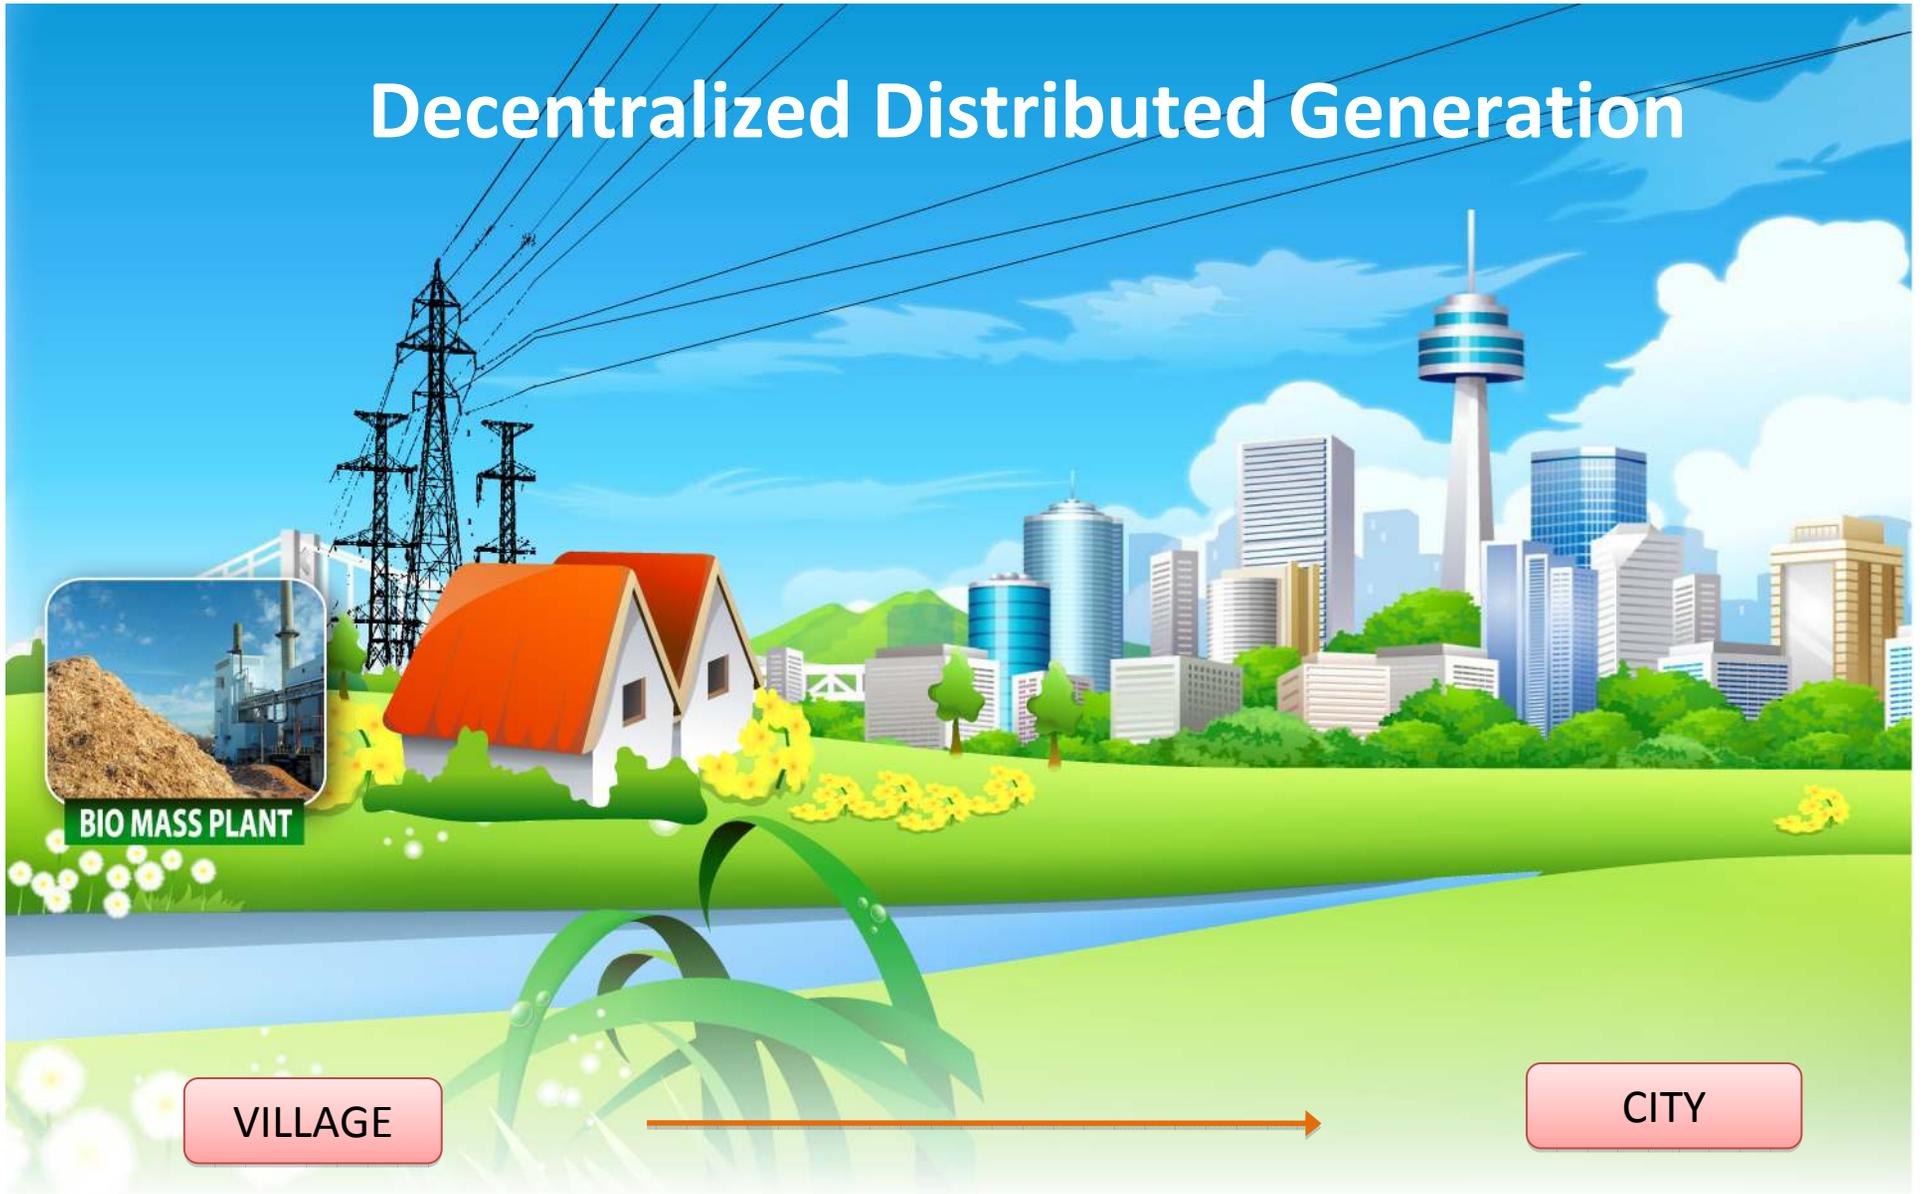

Smart Grid

Electricity Consumers could inject power into the Grid and be paid for it

Decentralized Distributed Generation

Electricity from Bio Mass plants in Villages could contribute to Powering Cities

Growth & the Environment

Can economic growth be accelerated without disturbing the environmental balance?

Thank You
